PRESS RELEASE

Paris Precious Week at Tajan June 2017

The 20th and 21th of June, 2017 will be held Tajan's Paris Precious Week. The auction house's biannual meeting will focus on three Jewels and Watches vacations animated by cocktails, a conference and exhibitions. The event will take place at Espace Tajan as well as on www.tajan.com for the live auctions.

The auctions of June will put in honor Decorative arts jewels style and in particular a tribute to René Boivin (1864-1917) with twelve pieces from the 1930's to the 1980's. Along with them, we will also present a beautiful set of two boxes by the Black Starr & Frost New Yorker house.

Precious gems will also be highlighted during these exceptional two days. An important marquise diamond of 15.73 karats (lot 305), a saturated and deep blue sapphire ring dating of the 1900's (lot 281) and a very rare Burmese ruby of approximately 19 karats will shine under the Tajan's glass roof. The auction will offer exquisite jewels of artists too, such as Picasso or Braque but also antique jewelry, full of history.

The opening to the public exhibitions will be launched by a conference on the theme of the contemporary jewels, animated by Madam Solange Thierry de Saint Rapt on the 15th of June at 7pm (upon reservation).
