

PRESS RELEASE

A large collection of Art Toys at Tajan auction.

The 6th of December 2017, Tajan's auction house will organize a new sale dedicated to Limited Edition, with a large art toys collection, including Be@rbrick by Medicom. The auction, accessible at l'Espace Tajan and on the Tajan Live platform, will scatter an exclusive set of about sixty pieces (from the same collector) with varied sizes, styles and materials.

The Be@rbricks' collectors and limited editions' enthusiasts will necessarily be seduced by the quality and variety of the catalogue. We already note some favorite lots : the Be@rbrick 1000% (biggest size) of Sponge Bob, a figurine by the urban artist Hiroshi Fujwara, and two rare 400% models of Nutcracker and Mickey Nexus 7. But informed collectors will certainly retain the emblematic 1000% Daft Punk Be@rbrick, estimated 10 000€ the pair, and the Superflat Museum sets by Takashi Murakami.

The event will take place on the 6th of November 2017 at 7pm, at the end to the Urban Art auction organized on the same day. A session of original sales which demonstrates the dynamism of the auction house and the ambition to direct its auctions towards innovative and federative themes. The few days of exhibition preceding the event should also fulfill the enthusiasts of design, urban and contemporary art.

Collectibles in the shape of an anthropomorphe bear, Be@rbricks have been created by the Japanese giant Medicom Toy. It is in 2001, during the "World Character Convention", major event of Cosplay, that they gain importance on the world market of figurines of collection.

Limited Edition auction, 6th of Novembre 2017, 7pm
